## WHY STUDY IN THE UK?

From our world-recognised institutions to our innovative teaching approach and the leading minds who deliver it, we have what you need to fulfil your ambitions.

### A HIGHER QUALITY OF EDUCATION

The UK's academic reputation is world-renowned.

UK universities have featured strongly in world rankings ever since they began. According to the 2019 Times Higher Education World Rankings, the UK is home to four of the world's top ten universities, including the top two. This high quality can be found right across the country, with 29 of the world's top 200 universities found here in the UK.

38 per cent of Nobel Laureates who studied abroad did so in the UK (British Council, 2015).

The UK's 169 universities (or 679 higher education institutions) are all held to strict standards by the government, so you know you are getting the best teaching, support and resources available.

### INNOVATIVE TEACHING METHODS

The UK is known for producing successful, versatile graduates and one of the reasons for this is our use of innovative teaching methods.

We have a long history of pioneering approaches to teaching that expand and build on the traditional, so students get the most from their studies – and themselves.

One of these innovative techniques is problem-based learning, in which you are asked to solve real-life problems, just like those you will face in your future career. This kind of learning is often combined with field trips and experiences that place you in simulated or real-world settings. Through these techniques you will learn how to apply theory to practice and to collaborate with others, often under time pressure. This will accelerate your learning and give you a significant edge over the competition when you graduate.

## MENGAPA MEMILIH BERSEKOLAH DI INGGRIS?

Dari lembaga pendidikan yang kualitasnya diakui seluruh dunia hingga pendekatan pengajarnya yang inovatif dan pengajar-pengajar terbaik, Inggris memiliki segala hal yang dibutuhkan seorang pelajar untuk mewujudkan cita-citanya.

### KUALITAS PENDIDIKAN YANG TINGGI

Pendidikan Inggris memiliki reputasi yang diakui dunia.

Universitas-universitas Inggris selalu menduduki peringkat atas sejak pendiriannya. Menurut Peringkat Pendidikan Tinggi Dunia tahun 2019 dari Times, tiga dari sepuluh universitas terbaik dunia—termasuk dua yang teratas—ada di Inggris. Kualitas ini pun merata di seluruh negeri dengan 29 dari 200 universitas top dunia berada di negara ini.

Sebanyak 38 persen penerima penghargaan Nobel yang menempuh studi di luar negaranya belajar di Inggris (British Council, 2015).

Sebanyak 169 universitas (atau 679 lembaga pendidikan tinggi) Inggris mengikuti standar mutu pemerintah yang amat ketat. Hal ini menjamin bahwa pelajar akan mendapat pengajaran, dukungan, dan sumber belajar terbaik.

### METODE MENGAJAR YANG INOVATIF

Inggris terkenal karena mampu menghasilkan lulusan yang sukses dan cakap di berbagai bidang. Metode mengajar yang inovatif adalah salah satu kunci keberhasilan ini.

Inggris juga memiliki riwayat panjang dalam menghasilkan pendekatan-pendekatan pengajaran terbaru, yang memperbarui dan berlandaskan pada metode tradisional. Pelajar pun akan mendapatkan pengalaman belajar dan pengembangan diri yang maksimal.

Salah satu teknik inovatif yang digunakan di Inggris adalah pembelajaran berdasarkan masalah—artinya, pelajar diminta memberikan solusi pada isu nyata sebagaimana yang akan dihadapinya dalam pekerjaannya kelak. Pembelajaran ini sering kali mencakup kunjungan lapangan dan pengalaman yang menempatkan pelajar dalam situasi simulasi maupun nyata. Melalui teknik inilah mahasiswa belajar mengaplikasikan teori dan bekerja sama — tak jarang dalam tekanan waktu. Cara ini memacu pembelajaran sekaligus membangun keunggulan yang mungkin tidak dimiliki orang lain.

## EMPLOYABILITY OUTCOMES

A UK education opens doors, wherever you go in the world. For graduates keen to make an impression on new employers, there's nowhere better to develop the skills that will make you stand out as you start your career, and help you reach your potential in the years to come.

UK graduates are among the most employable in the world (QS Graduate Employability Ranking). The UK is also among the top countries for university-industry collaboration, meaning you can access practical work-placements designed to help you hit the ground running in the real world.

## WORLD-LEADING RESEARCH

The UK is a global powerhouse of science and research. With so many universities at the cutting edge of global discoveries and emerging technology, our students graduate with insights and experience that are in high demand around the world.

The UK is ranked second in the world for science and research, with 54 per cent of our output is considered world-leading. That's more than the US, Canada, Germany, Japan and Brazil. Despite representing just 0.9 per cent of the global population, the UK produces 15.2 per cent of the world's most highly cited research (Elsevier and the Department for Business, Energy & Industrial Strategy, 2016).

## SHORT, FLEXIBLE COURSES AND DIVERSE SUBJECT OFFERINGS

It's not just our world-recognised universities that make us a top choice with international students. Courses in the UK are tailor-made to support you in getting the most from your studies as quickly as possible. There are more than 50,000 courses for you to choose from – no matter what you're passionate about, the UK is a fantastic place to pursue your interest.

In the UK, flexibility is built into the majority of our courses. Many universities allow you to choose from different subject 'modules', so you can build a course programme that suits you, specialising as you go for a perfectly tailored experience.

Postgraduate courses in the UK are shorter than those in the US and Australia, with many MBAs taking just one year. This means you can get better value for money and can begin applying your knowledge in the real world a lot sooner.

## COMPETITIVE FEES AND LIVING COSTS

The UK is an affordable study destination. You will be able to graduate and start earning sooner thanks to our shorter courses. A range of scholarships and financial support options are also available.

## KEBERHASILAN MENDAPAT PEKERJAAN

Pengalaman belajar di Inggris membuka luas peluang kerja di manapun di seluruh dunia. Ingin membuat atasan terkesan? Inggrislah tempat terbaik untuk mengasah keterampilan dan membuat seseorang menonjol dalam kariernya, serta membantunya memperlihatkan potensi yang ia miliki di masa mendatang.

Inggris juga memiliki riwayat panjang dalam menghasilkan pendekatan-pendekatan pengajaran terbaru, yang memperbaharui dan berlandaskan pada metode tradisional. Pelajar pun akan mendapatkan pengalaman belajar dan pengembangan diri yang maksimal.

Lulusan pendidikan tinggi Inggris adalah salah satu kelompok dengan tingkat serapan kerja tertinggi di dunia (QS Graduate Employability Ranking). Inggris juga merupakan salah satu negara yang dianggap memiliki kerja sama paling baik antara universitas dan industri. Artinya, pelajar bisa mengakses kesempatan praktik kerja yang memang dirancang agar seseorang mencapai kondisi siap kerja ketika lulus.

## PROGRAM SINGKAT DAN FLEKSIBEL DENGAN BERANEKA PILIHAN TOPIK

Tidak hanya keberadaan universitas-universitas terbaik yang menjadikan Inggris pilihan utama di kalangan mahasiswa internasional. Inggris juga memiliki program-program yang dirancang khusus agar pesertanya bisa mendapatkan manfaat sebesar mungkin dalam waktu singkat. Terdapat lebih dari 50.000 program yang bisa diikuti – apapun bidang yang diminati pelajar, Inggris adalah tempat terbaik untuk mendalaminya.

Selain itu, di Inggris, fleksibilitas adalah ciri dari sebagian besar program di sana. Di banyak universitas, pelajar dapat memilih dari beragam "modul" yang disediakan sehingga bisa merancang program belajar yang paling sesuai untuknya, membangun spesialisasi sembari mendapatkan pengalaman unik.

Program-program pascasarjana di Inggris secara umum lebih singkat dibandingkan AS dan Australia. Tak sedikit program MBA yang berlangsung hanya satu tahun. Dengan begitu, biaya pendidikan di Inggris lebih sepadan dengan hasilnya dan pelajar bisa mengaplikasikan pengetahuannya di dunia kerja dengan lebih cepat.

## PENELITIAN TERDEPAN DI BIDANGNYA

Keunggulan Inggris secara global di bidang sains dan penelitian tak diragukan lagi. Dengan banyak universitas yang aktif terlibat melakukan penemuan-penemuan baru berskala global dan fasih memanfaatkan teknologi terdepan, lulusan Inggris akan dibekali pengetahuan dan pengalaman yang menjadi tuntutan di seluruh dunia.

Inggris menduduki peringkat kedua dunia untuk sains dan penelitian; 54 persen produk sains dan penelitian Inggris dianggap yang terdepan di dunia atau lebih tinggi dibandingkan AS, Kanada, Jerman, Jepang, dan Brazil. Populasi Inggris hanya 0,9 persen dari populasi penduduk dunia, tetapi Inggris adalah penghasil 15,2 persen penelitian yang paling banyak dikutip di dunia (Elsevier and the Department for Business, Energy & Industrial Strategy, 2016).

## BIAYA STUDI DAN HIDUP YANG KOMPETITIF

Sebagai tujuan belajar, Inggris menawarkan biaya yang terjangkau. Pelajar bisa lulus dan mulai bekerja lebih cepat berkat program belajar yang dirancang singkat. Ada pula berbagai beasiswa dan bantuan keuangan yang terbuka untuk diakses.

# Indonesian students get the experience needed for success

Nottingham Trent University welcomes a small community of Indonesian students to its campuses each year. Some of those students share why they chose NTU and how their experience has set them up for their future careers.

Indira Illianti studied MSc Digital Marketing at Nottingham Business School. She really appreciated the range of nationalities and experiences of students and staff in the School.

"Everyone comes from different backgrounds which makes class discussions more interesting as different perspectives and thought processes are shared."

Indira was well supported throughout her course and made the most of the opportunities available to her.

"They help make sure we are on the right path towards achieving our personal and professional goals and supporting us to pursue other interests and opportunities beyond just academic things such as doing volunteering outside university" said Indira.

"I am glad that I am constantly reminded to make time for continuous self-development and the importance of sustainability during my time here. The course not only helped me to become a digital marketer, but to become a responsible global citizen as well."

Jeann Kenbangkhana wanted to study fashion and visual communication in the fashion industry. She studied Fashion Communication and Promotion.

"I wanted to learn how to make and convey strong and powerful messages to the consumer - and the course is built for this. The projects and modules are designed to improve my skills in different areas of communication such as marketing strategy, branding and advertising."

**"I have a nice, warm feeling knowing the whole institution is here to support me."**

Christine Koharitanu, MSc Management and Finance.

NTU's city campus is a short walk from everything Nottingham's bustling city centre has to offer.

"Since my course is located in Nottingham City Centre, I did not expect the feeling of studying in a campus. But when I came here the first time, I was so impressed by the facilities." Said Leonardus Nicholas Nugrahtama who studied MSc Advertising and Marketing Communications.

"The hands-on experience is what I think sets NTU apart from other universities. In all aspects – facilities, curriculum, support, proximity to city centre, and even the lifestyle, we're really supported to have a great work-life balance."

## LIFE IN THE UK

Whilst studying in the UK, there will be an endless number of ways for you to enjoy yourself, learn new things and make friends. The UK offers an amazing, unforgettable student experience like no other country. Make the most of it.

## KEHIDUPAN DI INGGRIS

Selama menempuh studi di Inggris, pelajar akan merasakan ada begitu banyak pilihan untuk membuat pengalamannya istimewa, belajar hal-hal baru, dan menjalin persahabatan. Inggris menawarkan pengalaman belajar yang luar biasa dan tidak terlupakan serta berbeda dari negara-negara lainnya. Manfaatkanlah kesempatan ini sebaik mungkin.

### UNIVERSITY ACCOMMODATION

Most universities and colleges have their own accommodation office and this should be the first place you go to ask about accommodation. Most institutions provide accommodation for international students in a hall of residence (either full-board or self-catering) or a self-catering shared house or flat. Space is usually limited, so applications for such accommodation should be made as soon as you have been accepted on your course and certainly before the required deadline.

### PRIVATE ACCOMMODATION

The accommodation office at your institution may be able to help with this, too. The office may keep lists of private accommodation available in the area, and some offices may even help you arrange a booking.

The most usual type of private accommodation is a room in a house with shared facilities. Renting a furnished house or a flat is likely to be expensive, especially in city centres, and quite difficult to find. A good way of making this affordable is to share with other students. If you do this, make sure you agree beforehand on how you will share costs.

### FOOD

Food is near the top of the list of things you might miss when away from home. But food can be one of the best parts of living in the UK.

In most cities and towns you will find a selection of supermarkets with plenty of choice for students on different budgets. An increasing number of supermarkets offer international food products. The average weekly food shop for one costs around £25.

Living in catered halls at university usually means that breakfast and dinner are provided for you from Monday to Friday. It makes life a lot easier having meals ready and made for you when you need them and it can be a sociable time.

It is also important while at university to build a positive relationship with food and cooking. You can make cooking interesting in a number of different ways. Why not try making something that you have never made before? The beauty of living and studying amongst people from all backgrounds and cultures are the different cuisines that everyone will cook. Why not ask your flatmates for a few tips and learn to make a few quick and easy dishes from a different culture?

### AKOMODASI MILIK UNIVERSITAS

Sebagian besar universitas dan sekolah tinggi memiliki kantor layanan akomodasi sendiri. Kantor ini idealnya adalah tempat pertama untuk mencari informasi seputar tempat tinggal. Tidak sedikit pula lembaga yang menyediakan tempat tinggal bagi pelajar internasional di asramanya (baik yang sudah dilengkapi fasilitas pendukung maupun tidak) atau menyediakan rumah atau apartemen sewa untuk mahasiswa. Jumlahnya biasanya tidak banyak, sehingga pelajar perlu mendaftarkan diri sesegera mungkin setelah dinyatakan diterima dan, tentunya, jauh sebelum tenggat waktu pendaftaran.

### AKOMODASI DI LUAR KAMPUS

Kantor layanan akomodasi juga dapat membantu dalam hal ini. Biasanya, kantor ini sudah memiliki daftar tempat-tempat akomodasi swasta yang tersedia di lingkungan kampus. Beberapa layanan mungkin dapat membantu memesan tempat.

Tipe akomodasi terpisah dari kampus yang paling banyak dijumpai adalah semacam kamar sewa dengan sebagian fasilitas digunakan bersama oleh para penghuni. Menyewa satu rumah atau apartemen biasanya membutuhkan biaya cukup mahal, terutama jika berlokasi di pusat kota, dan sulit ditemukan yang masih tersedia. Jika menginginkan tipe ini, maka pelajar bisa mengajak pelajar lain. Namun, pastikan bahwa pembagian biaya sudah disepakati di awal.

### MAKANAN

Makanan boleh jadi adalah salah satu hal yang paling akan dirindukan seseorang saat berada jauh dari rumah. Namun, saat tinggal di Inggris, makanan lokal juga bisa menjadi salah satu hal yang paling berkesan.

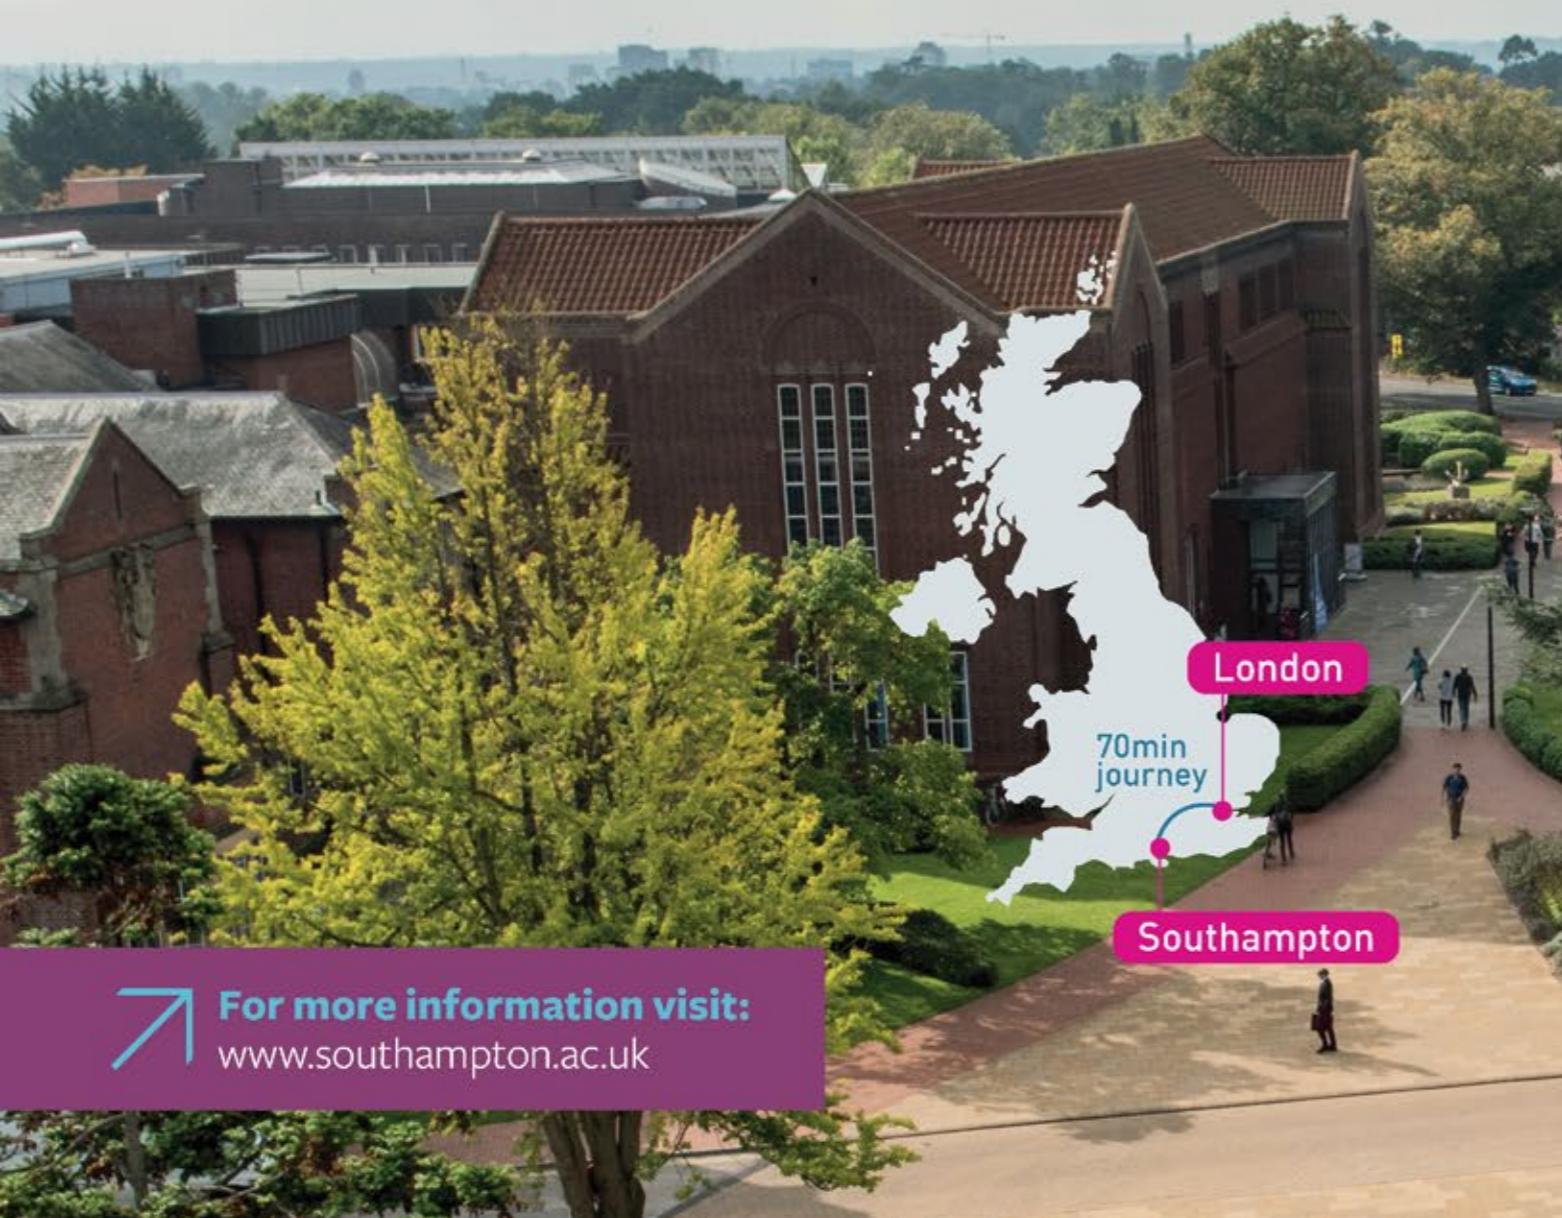

Di sebagian besar kota, besar ataupun kecil, selalu ada beberapa jenis supermarket dengan macam-macam pilihan makanan sesuai anggaran. Kini, semakin banyak supermarket yang menjual produk makanan internasional. Biaya rata-rata belanja makanan per minggu untuk satu orang adalah sekitar £25.

Apabila pelajar tinggal di dalam kampus, maka sarapan dan makan malam biasanya disediakan dari hari Senin hingga Jumat. Cara ini sangat praktis karena makanan selalu ada dan siap disantap saat dibutuhkan dan bisa jadi kesempatan berkenalan dengan teman-teman baru.

Membangun kebiasaan makan dan memasak selama masa studi juga penting bagi seorang pelajar. Memasak bisa menjadi menarik dengan mencoba hal-hal baru, misalnya menu yang belum pernah dibuat sendiri sebelumnya. Selain itu, salah satu keuntungan tinggal dan belajar bersama orang-orang dari berbagai budaya adalah tradisi kuliner unik yang mereka bawa. Mengapa tidak meminta saran atau belajar membuat hidangan praktis dari budaya yang berbeda?

## LEISURE TIME

On campus, the students' union usually organises all kinds of social functions and there will be many clubs and societies that you can join.

If you are interested in arts and culture, you will find the UK packed with museums, theatres and other cultural attractions just waiting to be discovered.

The restaurant scene in the UK is thriving, and increasingly diverse. Pubs are also popular social destinations for many university and college students in the UK. You don't have to drink alcohol to go to a pub – you will find lots of non alcoholic drinks on offer, and many pubs also have food and entertainment such as karaoke, football match screenings, or pub quizzes (weekly events where you compete as a team).

Some of the world's largest music venues and events are in the UK, such as the O2 Arena in London and the world-famous Glastonbury Festival, but many world-renowned artists and bands also play at UK universities and colleges, and small bars and cafés often host live music and dancing.

Almost every town will have a cinema with films from around the world. Hollywood releases will be easy to find, but major cities also have cinemas specialising in foreign and independent films, and universities often have a student cinema that shows films on campus at student-friendly prices.

If you love sport, the UK offers a range of ways to explore your passion. We're fanatical about every kind of sport here, and many of our athletes and clubs lead the world. Whether it's global team sports, like football, or individual sports like athletics, you will find ways to compete in and celebrate the sports you care most about alongside your studies.

## UK WEATHER AND CLOTHING

Although UK weather is unpredictable, it is rarely extreme. Wear several layers so that you can put them on or take them off as the weather changes, and always carry an umbrella.

In summer, the average temperature ranges from 9–18 degrees Celsius (48–64 degrees Fahrenheit). On occasion, it can reach around 30 degrees Celsius (86 degrees Fahrenheit) in a heatwave.

In winter the average is between 2 and 7 degrees Celsius (36–45 degrees Fahrenheit), but temperatures can drop below 0 degrees Celsius (36 degrees Fahrenheit). Most houses, buildings, trains and buses have good heating systems. In general, there is little difference between the regions of the UK, but you will experience more snow, rain and wind in northern and mountainous areas.

Most UK towns and cities have a large range of shops selling clothes to suit all styles and budgets. You will see all kinds of fashion at UK schools, colleges and universities, and almost anything goes. Students usually dress casually during the day – jeans and t-shirts are fine – and more smartly if you're going out in the evening. Very few student bars and pubs have a dress code.

Some courses require you to wear specialist clothing for health and safety. For example, if you are in a science laboratory, you may need to wear protective glasses and a white lab coat.

The UK is a multi-cultural place and it is common for people to wear clothing associated with their culture and religion, for example a head scarf, kippah, turban, sari or long skirt. In major towns and cities you will find specialist shops selling clothing from around the world, particularly Asian and Middle Eastern clothing.

## HIBURAN

Di kampus, perhimpunan pelajar biasanya mengadakan macam-macam acara. Pelajar juga bisa bergabung dengan beragam klub dan perkumpulan.

Pencinta seni dan budaya akan bisa menikmati Inggris yang penuh dengan museum, teater, dan atraksi budaya lain yang menarik untuk dieksplorasi.

Sementara itu, industri restoran Inggris adalah industri yang hidup serta makin beragam. Pub atau bar juga merupakan tempat bersosialisasi yang populer di kalangan mahasiswa Inggris. Meskipun bernama pub, tetapi pengunjung tidak harus mengonsumsi alkohol—malah, ada banyak pilihan minuman non-alkohol. Banyak juga pub yang memiliki menu makanan dan hiburan seperti karaoke, nonton bareng pertandingan bola, ataupun kuis (acara mingguan yang pesertanya berlomba dalam tim).

Inggris memiliki ajang musik terbesar dunia, seperti O2 Arena di London dan Festival Glastonbury. Tak sedikit pula artis dan grup musik terkenal yang bermain di panggung-panggung universitas dan sekolah tinggi, sementara bar dan kafe sering menggelar pertunjukan musik dan dansa.

Bagi penyuka film, hampir semua kota di Inggris punya bioskop yang menayangkan film dari seluruh dunia. Film Hollywood paling mudah dijumpai, tetapi kota-kota besar khususnya juga memiliki bioskop untuk film berbahasa asing dan film independen. Universitas pun biasanya memiliki bioskop pelajar yang menayangkan film di kampus dengan 'harga mahasiswa'.

Pencinta olahraga tidak akan kekurangan cara menikmati hobinya di Inggris. Masyarakat Inggris terkenal fanatic terhadap setiap cabang olahraga dan tidak sedikit atlet dan klub Inggris yang unggul di tingkat dunia. Baik untuk olahraga tim yang popular seperti sepak bola ataupun cabang individu seperti atletik, siapapun pasti bisa ikut berkompetisi dan menikmati olah raga yang paling disukainya sambil tetap menikmati hari-harinya belajar.

## CUACA DAN PAKAIAN

Cuaca di Inggris memang tidak terduga, tetapi cuaca ekstrem jarang terjadi. Kenakanlah beberapa lapis pakaian agar mudah dipakai dan dilepas sesuai cuaca, dan jangan lupa selalu membawa payung.

Rata-rata suhu pada musim panas adalah 9–18 derajat Celsius. Namun, saat terjadi gelombang panas, suhu dapat mencapai sekitar 30 derajat Celsius.

Sementara itu, rentang rata-rata suhu pada musim dingin adalah 2 dan 7 derajat Celsius, tetapi bisa turun hingga di bawah 0 derajat Celsius. Sebagian besar bangunan, kereta, dan bus sudah dilengkapi dengan sistem pemanas yang memadai. Perbedaan suhu di berbagai wilayah Inggris secara umum tidak signifikan, namun wilayah utara dan pegunungan cenderung lebih bersalju, berangin, dan dengan curah hujan lebih tinggi.

Sebagian besar kota-kota di Inggris, kecil maupun besar, memiliki banyak toko pakaian yang sesuai dengan semua gaya dan kemampuan anggaran. Ada macam-macam gaya mode di lingkungan sekolah, kampus, dan universitas, dan semua orang dapat mengenakan hampir apa saja. Pada siang hari, mahasiswa umumnya tampil kasual—jeans dan t-shirt tidak masalah—lalu berpakaian lebih formal jika hendak menghadiri suatu acara di malam hari. Sangat sedikit bar dan pub mahasiswa yang menerapkan peraturan berpakaian.

Program studi tertentu meminta mahasiswanya untuk mengenakan pakaian khusus untuk alasan kesehatan dan keselamatan. Sebagai contoh, mahasiswa yang berada di laboratorium sains akan diminta untuk mengenakan kacamata pelindung dan jas lab berwarna putih.

Inggris adalah tempat yang multi budaya. Sangat lumrah melihat orang-orang berpakaian sesuai dengan latar belakang budaya atau agamanya, misalnya saja hijab, kippah, turban, sari, atau rok panjang. Di kota-kota besar, terdapat banyak toko khusus yang menjual pakaian dari pelbagai tempat di dunia khususnya Asia dan Timur Tengah.
