- 2.3. British Council and Diageo are partnering to give capacity support to the local community to identify and manage their potential community-based social enterprise in tourism in Bali by combining Active Citizens and Social Enterprise programmes. The programme called Langgeng Community-based Ecotourism, has been running since 2015 in Nyambu Village, Tabanan District, Bali as a further engagement of social enterprise work. The objectives of the programme are:
1. To strengthen/expand our existing work in Social Enterprise with Diageo to support Community based Social Enterprise in Indonesia especially in Bali and Eastern part of Indonesia.
 2. To support local community/Nyambu to solve their problems in unleashing their tourism potential and develop community-based tourism initiatives that does not harm their environment and culture and bring positive experience for the local community and related stakeholders.

For the implementation of this programme, we have collaborated with our local partner, Yayasan Wisnu. The program was designed and developed through three stages of preparation, planning and development using Active Citizens Social Enterprise approach or principles and implementation. British Council then sought inputs from technical experts to complete the tourism component. Some of key activities included community mapping to understand the community asset and capacity building on designing, developing tourism products and running the ecotourism business as a social enterprise

Through community mapping activity, the villagers were made aware of the value of the resources they already have, including nature, history and culture, arts and the people in their village. We trained and facilitated them to design and develop tourism products based on the identified potential resources.

The programme has resulted in a community based social enterprise in tourism called "Desa Wisata Ekologis Nyambu/Nyambu Ecotourism. It is managed and run by Nyambu society under the supervision of the head of Nyambu Village. Nyambu Ecotourism offers guided tours performed by local people – examples include rice field tour, cultural tour, village cycling tour, culinary delights, painting and arts performance, homestay.

↓

Stage 2: If a bidder succeeds in passing Stages 1 and 2 of the evaluation, then it will have its detailed tender response to the British Council’s requirements evaluated in accordance with the evaluation methodology set out below.

14.2. Award Criteria – Responses from potential suppliers will be assessed to determine the most economically advantages tender using the following criteria and weightings and will be assessed entirely on your response submitted:

14.3. Scoring Model – Tender responses will be subject to an initial review at the start of Stage 3 of the evaluation process. Any tender responses not meeting mandatory requirements or constraints (if any) will be rejected in full at this point and will not be assessed or scored further. Tender responses not so rejected will be scored by an evaluation panel appointed by the British Council for all criteria other than Commercial using the following scoring model:

Points	Interpretation
10	Excellent – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas evidence requested in the level of detail requested. This, therefore, is a detailed excellent response that meets all aspects of the requirement leaving no ambiguity as to whether the bidder can meet the requirement.
7	Good – Overall the response demonstrates that the bidder meets all areas of the requirement and provides all of the areas of evidence requested but contains some trivial omissions in relation to the level of detail requested in terms of either the response or the evidence. This, therefore, is a good response that meets all aspects of the requirement with only a trivial level ambiguity due the bidders failure to provide all information at the level of detail requested.

5	Adequate – Overall the response demonstrates that the bidder meets all areas of the requirement, but not all of the areas of evidence requested have been provided. This, therefore, is an adequate response, but with some limited ambiguity as to whether the bidder can meet the requirement due to the bidder’s failure to provide all of the evidence requested.
3	Poor – The response does not demonstrate that the bidder meets the requirement in one or more areas. This, therefore, is a poor response with significant ambiguity as to whether the bidder can meet the requirement due to the failure by the bidder to show that it meets one or more areas of the requirement.
0	Unacceptable – The response is non-compliant with the requirements of the RFP and/or no response has been provided.

14.4. Commercial Evaluation – Your “Overall Price” (as calculated in accordance with requirements of Annex [3] (Pricing Approach) for the goods and/or services will be evaluated by the evaluation panel for the purposes of the commercial evaluation. In the event that any prices are expressed as being subject to any pricing assumptions, qualifications or indexation not provided for by the British Council as part of the pricing approach, the British Council may reject the full tender response at this point. The British Council may also reject any tender response where the Overall Price for the goods and/or services is considered by the British Council to be abnormally low following the relevant processes set out under the EU procurement rules. A maximum offer score of 10 will be awarded to the tender response offering the lowest “Overall Price”. Other tender responses will be awarded a mark by application of the following formula: (Lowest Overall Price/Overall Price being evaluated) x 10 (rounded to two decimal places) = commercial score.

14.5. Moderation and application of weightings – The evaluation panel appointed for this procurement will meet to agree and moderate scores for each award criteria. Final scores in terms of a percentage of the overall tender score will be obtained by applying the relevant weighting factors set out as part of the award criteria table above. The percentage scores for each award criteria will be amalgamated to give a percentage score out of 100.

14.6. The winning tender response – The winning tender response shall be the tender response scoring the highest percentage score out of 100 when applying the above evaluation methodology, which is also supported by any required verification evidence (to include, without limitation, any updated information or references relating to any Qualification Question responses) obtained by the Authority relating to any self-certification or other requirements referred to in the Qualification Questionnaire (*if used*). If any verification evidence requested from a supplier, or a relevant third party as may be referred to by the supplier in the Qualification Questionnaire (*if used*) as a party prepared to provide such information, is not provided in accordance with any timescales specified by the British Council and/or any evidence reviewed by the British Council (whose decision shall be final) does not demonstrate compliance with any such requirement, the British Council may reject that tender response in full and disqualify the potential winning supplier from the Procurement Process at that point.
